

Project SEARCH is a unique supported training and employment internship opportunity. It helps young people with special educational needs and disabilities make successful transitions from school to productive adult life and gain the skills they need to achieve meaningful paid jobs. Supported all the way by a Job Coach, Tutor and Employer Mentor learners gain hands on experience of real work through a series of long-term placements. Additional guidance and transition support from the Internship into their next pathway is part of this programme.

The best moment for me, is seeing students achieve their goal of gaining employment with us here at ISS. They have both been challenged along the way, but to see the improvement in them both and now seeing how happy they are to be at work every day makes it all worthwhile.

Alex Bennett
Portering Supervisor, ISS

Successes

A 100% success rate in securing paid employment, all over 16 hour contracts.

The programme started initially at Royal Derby Hospital and has now been extended to include Chesterfield Royal Hospital too.
